MUNDAY EVENING, AUGUST 11.

THE BASIS OF APPORTIONMENT.-Superintendent Porter intende to make a preliminary report to Congress, showing the net population of the States some time during the last week in this month. The report will be transmitted to Congress and will be taken up by the House committee on the 11th census immediately. It is believed that a bill providing for the reapportionment of Congressional representation can be intro-duced from the committee by the eccond week to September. The House will then have little important work to do, and can debate and pass the measure within a few days The oill will be prepared after con-sultation with the leading republican Sens-tors, so that the measure adopted by the House will not be amended by the Senate Leaders in the House express the belief that the basis of apportionment for the represertation of membership of the House will be fixed at 180,000 persons, the present basis being one member for every 157,000 or frac-tion thereof. The design is to not increase the membership of the House over twentyfive, and it is estimated that on the basis of 180,000 the membership of the Hoose will be D. HARRY APPICH, abon: 355, it being calculated that the population of the States will be 64,000,000.
